

CLOSED MICROSITE INSTRUCTIONS, CREATION OF PAYMENT ORDERS AND MASS UPLOADS

General Instructions

November 2024

Version 3

CONFIDENTIAL USE

Document Statement

This document was prepared by, for and shall remain the property of Evertec® for its confidential use.

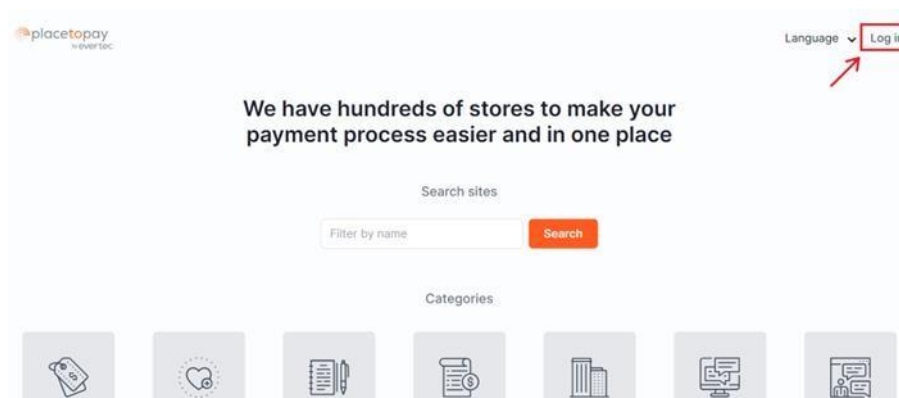

Customer agrees by its acceptance or use of these documents, to return them upon request of Evertec® and not to reproduce, copy, lend or otherwise disclose or dispose of their contents, directly or indirectly, and not to use them for any purpose other than that for which they were specifically prepared.

1. ACCESS TO THE CLOSED MICROSITE.

Considerations:

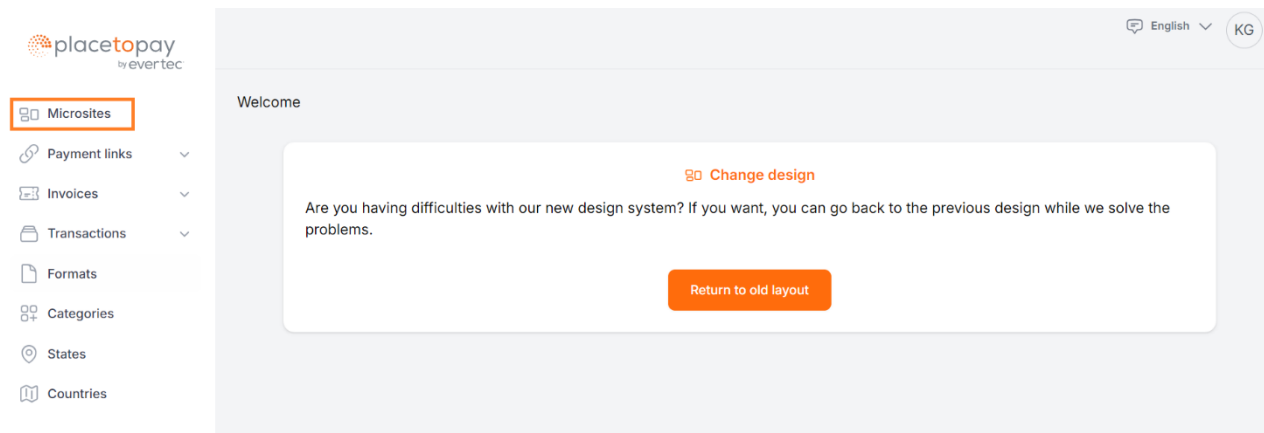

- Have a username and password to access the administrative console:
<https://panel.placetopay.com/index.php/module/Sites/action/Index>
- Be clear about the name of the payment site created in the console, which will be tied to the microsite.

you must click on the start button shown in the link: [Sites - Evertec®](#).

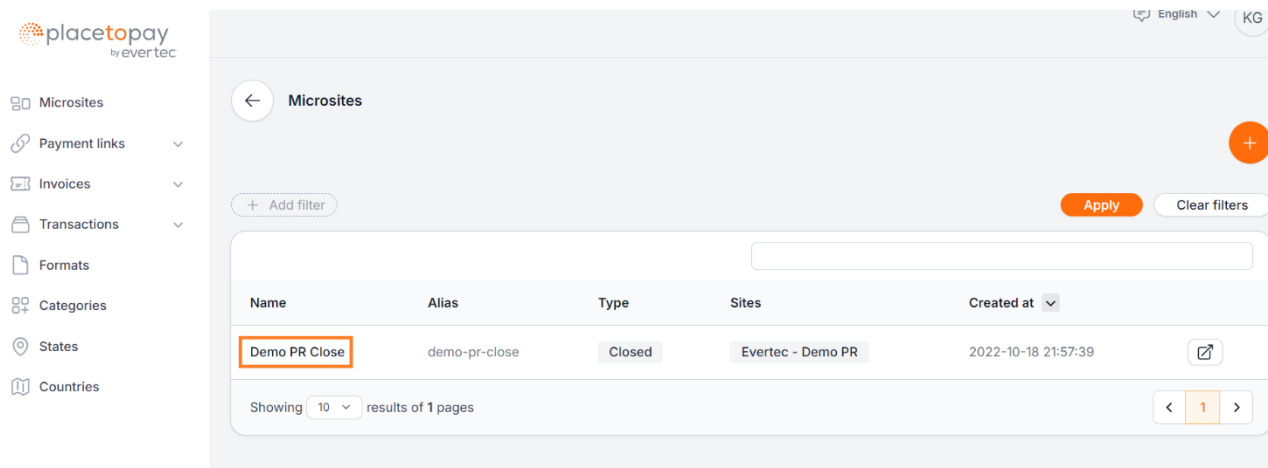

Enter the credentials provided by Placetopay and click on the login button.

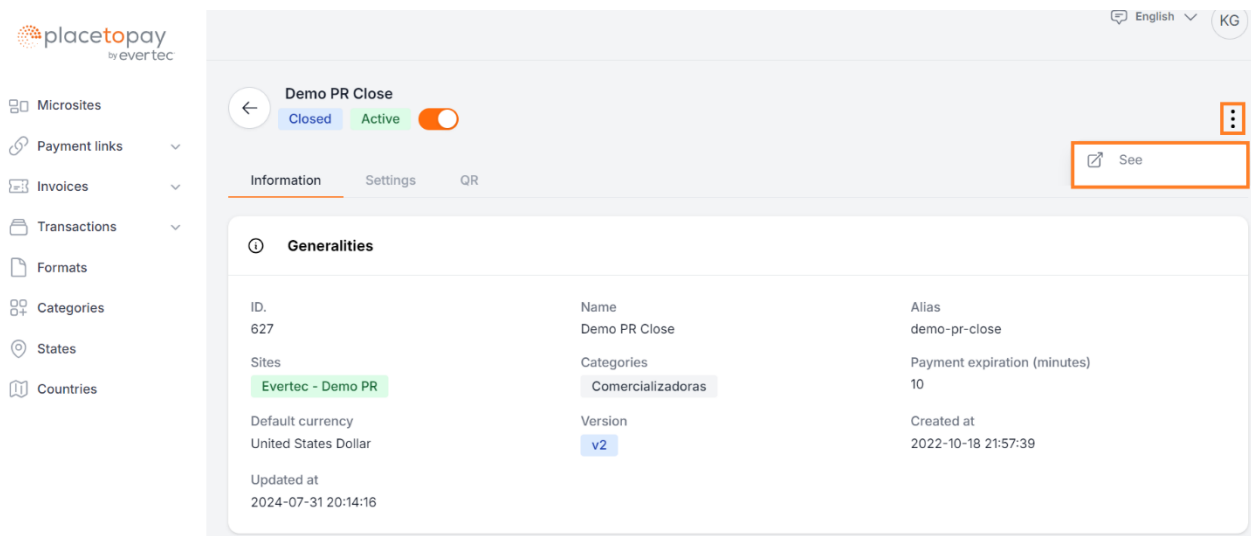

Then, you must enter the microsities option to start the process.

Click on the name of the microsite to access the details.

Once inside the microsite detail, click on the button located at the top right with 3 dots “⋮” and then click on the “SEE” option to enter the microsite and extract the URL to share.

Once inside the microsite, the URL of the browser is the one that must be shared with the client (it is always the same for all clients) so that he/she can enter the data of the payment order that we generate. The data to be entered by the customer are: Payment order number (reference) and the alternate reference, these data are parameterized within the order which is explained later in this same document.

Demo PR Close

Start the payment process, by entering the following information

Reference *

Alternate reference *

By proceeding, I accept the applicable policies for the treatment of my personal data according to the local jurisdiction of the responsible entity and Evertec PlacetoPay in its capacity as manager.

Log in

Electronic payment

From your house, office or wherever you are, pay safely through our payment system. Use our service 24 hours and 7 days a week

Made by placetopay evertec English

Once the user fills in the payment order data and presses the enter button, it shows the details of all the related invoices, the user has the option to pay all the associated pending invoices or the one selected. When the user determines which invoices he/she is going to pay, he/she must click on **pay** and at that moment he/she is redirected to the payment portal where he/she enters the data of the payment method and makes the transaction. If you click on the reference number, all the details of the invoice will be displayed.

2. ONE-TO-ONE PAYMENT ORDER UPLOAD

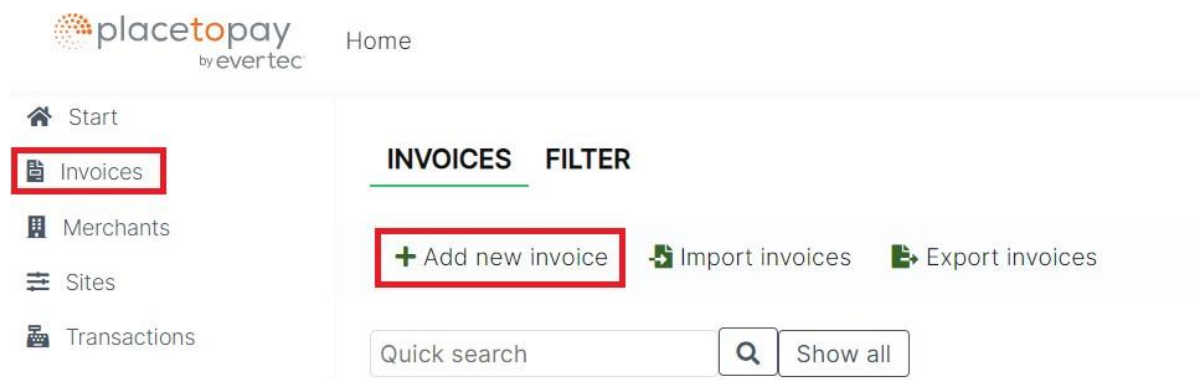

Considerations:

- Have a user name and password to access the administrative console:
<https://panel.placetopay.com/index.php/module/Sites/action/Index>
- Be clear about the name of the payment site created in the console, which will be tied to the microsite.

2.1. ORDER OF PAYMENT

Steps:

1. When entering the administrative console, click on the "Invoices" field where a tab will be displayed and select "add new invoice".

2. The information requested in the form is entered:

- **Invoice number:** this must be numeric and is unique for each payment order to be charged, this field is understood as the reference of the transaction.
- **Alternate reference:** this field can be an alphanumeric field which can be a internal code on the product or service in the inventory.
- **Identification type:** this field is not mandatory, it can be selected according to the type of document used by the end user.
- **Identification number:** the document number of the purchaser who is going to to acquire the product or service.

- **On behalf of:** Name of the person who will purchase the product or service.
- **E-mail:** of the person who is going to purchase the product or service.
- **Service code:** is a numeric code that identifies the services you want to manage according to the products.
- **Description:** description of the service code.
Note: if there is no internal coding, enter the number 0 in the field.
- **Currency:** select the type of currency
- **Amount:** total value to be debited to the user
- **Tax:** if the product or service that we are going to associate to the order of payment by local legislation breaks down the tax, in this field to go the multiplication that is going to be configured in the refund base.
- **Subtotal:** is the net value of the purchase (excluding tax).
- **Creation date:** by default it brings the day on which the action is to be performed, but it is fully editable by the merchant.

INVOICES **ADD NEW INVOICE**

Important: to delete a payment order, no transaction process must have been registered on it.

How to consult a payment order?

To consult a payment order you will have two options. The first one will have a section where you can perform a quick search.

INVOICES **FILTER**

+ Add new invoice Import invoices Export invoices

Quick search  Show all

Here you can perform a quick search with the payment order number or if you have the alternate reference, you will be able to find the specific order you are looking for.

INVOICES **FILTER**

+ Add new invoice Import invoices Export invoices

1243  Show all

Pages: 1 Lines per page: 15 30 100

Invoice number	Site	Alternate reference	Identification number	Currency	Amount	Expiration Date	Due rate	Payment date
1243	Demo PR	2022	-	USD	532.00	06/01/2024	10.00%	

Another way to search for transactions is by using the filter option.

INVOICES **FILTER**

+ Add new invoice Import invoices Export invoices

Quick search  Show all

There you will be able to perform a more advanced search since you will have more options with which to perform it.

INVOICES **FILTER**

Filter your search below.

It will ask for a name for the filter, assign it and click on the Ok button.

panel says

Por favor ingrese el nombre con el cual desea identificar el filtro.

El nombre debe poseer por lo menos 5 caracteres.

OK

Cancel

This can be viewed in the saved filters section and to apply it you only have to click on it and click on the option to apply filter.

3. INSTRUCTIONS FOR MASS UPLOADING OF PAYMENT ORDERS

In these instructions you will find the steps to follow to perform the mass upload of payment orders from the administrative console.

Considerations:

- To have a user and password to access the administrative console
<https://panel.placetopay.com/index.php/module/Sites/action/Index>
- The import file must contain up to five thousand payment orders and must be in csv format.
- The file must meet the following conditions:

Valores obligatorios	Ordenes de pago a importar	Nombre servicio	Suma total de los valores a pagar de las ordenes de pago (sin el valor de recargo)
Fecha generación(aaaaammdd)	RUT comercio	Código servicio	
20201008	1000,A	9002992280,3,0	Placetopay Mensualidad,60000000
1234,ralterna1	1000000001	Pepito Perez	14800000,20201029,00000,20201111,0
2345,ralterna2	1000000111	Andres Murillo	25265000,20201030,15000000,20201112,0
3456,ralterna3	1000111000	Maria Queiroz	19935000,20201028,3000000,20201113,0
Referencia Orden de pago	Documento comprador	Nombre comprador	Fecha corte orden de pago (aaaaammdd)
Referencia alterna			Valor recargo(cuatro decimales al fina)
			Fecha vencimiento(aaaaammdd)
			Valor Orden de pago (dos decimales al final)

This file can be generated from any office tool similar to Microsoft Excel for greater ease and order.

Column A should contain the invoice creation date in YYYYMMDD format.

A	B	C	D	E	F	G	H	I
20220126	1740 A		77888995-9	5	1001	Pago Matricu	1000000

234	S2170311	11257842-8	Jaramillo Osp	200000	20220129	0	20220130	1

Column C must contain the letter A, which identifies that the file is alphanumeric.

A	B	C	D	E	F	G	H	I
20220126	1740	A	77888995-9	5	1001	Pago Matricu	1000000	
106	S2170312	11257844-9	Arroyave Gri	200000	20220129	0	20220130	1
1300	S2170311	11257852-3	Arroyave Per	200000	20220129	0	20220130	1
45	S2170311	11257840-7	Gonzales Gri	200000	20220129	0	20220130	1
221	S2170311	11257841-5	Nuñez Ortiz \	200000	20220129	0	20220130	1
234	S2170311	11257842-8	Jaramillo Osp	200000	20220129	0	20220130	1

In column D you must enter the RUT or the organization's identification number.

A	B	C	D	E	F	G	H	I
20220126	1740	A	77888995-9	5	1001	Pago Matricu	1000000	
106	S2170312	11257844-9	Arroyave Gri	200000	20220129	0	20220130	1
1300	S2170311	11257852-3	Arroyave Per	200000	20220129	0	20220130	1
45	S2170311	11257840-7	Gonzales Gri	200000	20220129	0	20220130	1
221	S2170311	11257841-5	Nuñez Ortiz \	200000	20220129	0	20220130	1
234	S2170311	11257842-8	Jaramillo Osp	200000	20220129	0	20220130	1

Column E should be the total number of invoices to be loaded in the parameter file.

A	B	C	D	E	F	G	H	I
20220126	1740 A	77888995-9		5	1001	Pago Matricu	1000000	
106	S2170312	11257844-9	Arroyave Grisales Viviana	200000	20220129	0	20220130	1
1300	S2170311	11257852-3	Arroyave Perez Gloria	200000	20220129	0	20220130	1
45	S2170311	11257840-7	Gonzales Grisales Lucas	200000	20220129	0	20220130	1
221	S2170311	11257841-5	Nuñez Ortiz Viviana	200000	20220129	0	20220130	1
234	S2170311	11257842-8	Jaramillo Ospina David	200000	20220129	0	20220130	1

Column F contains the service code that you wish to assign, you can leave the default number 1001 or if not, the business can enter its identifier.

A	B	C	D	E	F	G	H	I
20220126	1740 A	77888995-9		5	1001	Pago Matricu	1000000	
106	S2170312	11257844-9	Arroyave Grisales Viviana	200000	20220129	0	20220130	1
1300	S2170311	11257852-3	Arroyave Perez Gloria	200000	20220129	0	20220130	1
45	S2170311	11257840-7	Gonzales Grisales Lucas	200000	20220129	0	20220130	1
221	S2170311	11257841-5	Nuñez Ortiz Viviana	200000	20220129	0	20220130	1
234	S2170311	11257842-8	Jaramillo Ospina David	200000	20220129	0	20220130	1

Column G should contain a general description of the payment to be made with the invoices charged.

A	B	C	D	E	F	G	H	I
20220126	1740 A	77888995-9		5	1001	Pago Matriculas	1000000	
106	S2170312	11257844-9	Arroyave Grisales Viviana	200000	20220129	0	20220130	1
1300	S2170311	11257852-3	Arroyave Perez Gloria	200000	20220129	0	20220130	1
45	S2170311	11257840-7	Gonzales Grisales Lucas	200000	20220129	0	20220130	1
221	S2170311	11257841-5	Nuñez Ortiz Viviana	200000	20220129	0	20220130	1
234	S2170311	11257842-8	Jaramillo Ospina David	200000	20220129	0	20220130	1

Column H should contain the total value that adds up all the invoices that are being uploaded, to this value two more decimals (00) should be added, this is a rule so that the correct value is displayed when uploading the invoice.

A	B	C	D	E	F	G	H	I
20220126	1740 A	77888995-9		5	1001	Pago Matriculas	1000000	
106	S2170312	11257844-9	Arroyave Grisales Viviana	200000	20220129	0	20220130	1
1300	S2170311	11257852-3	Arroyave Perez Gloria	200000	20220129	0	20220130	1
45	S2170311	11257840-7	Gonzales Grisales Lucas	200000	20220129	0	20220130	1
221	S2170311	11257841-5	Nuñez Ortiz Viviana	200000	20220129	0	20220130	1
234	S2170311	11257842-8	Jaramillo Ospina David	200000	20220129	0	20220130	1

Column I is an identifier, in this case it should always be left empty.

A	B	C	D	E	F	G	H	I	J
20220126	1740 A		77888995-9	5	1001	Pago Matriculas	1000000		
106	S2170312	11257844-9	Arroyave Grisales Viviana	200000	20220129	0	20220130	1	
1300	S2170311	11257852-3	Arroyave Perez Gloria	200000	20220129	0	20220130	1	
45	S2170311	11257840-7	Gonzales Grisales Lucas	200000	20220129	0	20220130	1
